Ava plays an active role in designing and executing mock trial research to study the motivations and attitudes of individuals across the United States. She works as an extension of the trial team, closely supporting litigators through antitrust matters, breach of contract claims, medical malpractice claims, and personal injury.

Ava is an enthusiastic advocate and brings insights that elevate case arguments and inform case strategy. Her experience includes developing case themes and strategy, coordinating research, including teams of researchers, and moderating live and online deliberations.
